

The tangram is an ancient puzzle. It consists of seven flat shapes, called tans, which are assembled to form new shapes.

## RULES

1. You must use all seven tans
2. The tans must lie flat
3. The tans must touch
4. None of the tans can overlap

## ACTIVITY

1. Colour in your shapes and cut them out. You may need to ask a parent for help
2. Arrange the sets of shapes and make as many animals as you can using the rules above. How many can you make?
3. Record your results on the back of this sheet
